

# Hydrogen Industry Roadmap to be Defined by Global Governments & Energy Leaders at 2nd World Hydrogen Summit

*Global governments and energy leaders have confirmed their participation at the 2nd World Hydrogen Summit taking place virtually on 9-11 March.*

LONDON, UNITED KINGDOM ,  
February 24, 2021 /EINPresswire.com/  
-- From "Why" to "How": Hydrogen  
Industry Roadmap to be Defined by  
Global Governments & Energy Leaders  
at [2nd World Hydrogen Summit](#)

Recent "Green Recovery" announcements, National Energy strategies and the prospect of a European Green Deal have all brought Hydrogen back into focus as a key enabler in the race for carbon neutrality. Green hydrogen in particular exceeded expectations in 2020 despite the pandemic, with new records achieved in electrolysis capacity, fuel cell electric vehicle market expansion and several large-scale gigafactories announced. But more efforts are needed to scale up and expand hydrogen use, ensure its low-carbon potential is fully harnessed to deliver on set climate targets and reach NetZero carbon by 2050.

Speaker at World Hydrogen Summit

Exhibition at World Hydrogen Summit

Global government representatives and energy leaders have confirmed their participation at the 2nd World Hydrogen Summit taking place virtually on 9-11 March, with the aim to accelerate

efforts and define the hydrogen industry roadmap for the year ahead. The summit programme shifts the conversations from “why” to “how” reflecting the need to maximise the current momentum to accelerate knowledge transfer and increase international hydrogen deployment.

The Summit is produced by the [Sustainable Energy Council](#), in partnership with the City of Rotterdam and the Port of Rotterdam Authority

and is sponsored by a an array of organisations leading current hydrogen projects world-wide who will be present through representatives that will speak, connect and build cross-sector partnerships enabling hydrogen projects to become a reality; including: Smartenergy, Shell, Wärtsilä, Mitsubishi Heavy Industries Group, Alcazar, Shearman & Sterling, McPhy, Star Scientific, Linklaters, Atlas Copco, Advent, DTEK, Queensland Government Australia, Cummins Inc.

#### Confirmed Speakers Include:

- H.E. Joao Pedro Matos Fernandes, Minister of Climate Action & Environment, Portugal
- H.E. Dan Jørgensen, Minister for Climate, Energy & Utilities, Denmark
- H.E. Adam Guibourgé-Czetwertyński, Undersecretary of State, Ministry of Climate and Environment, Poland
- Ahmed Aboutaleb, Mayor, City of Rotterdam, Netherlands
- The Hon Mick de Brenni Minister for Energy, Renewables and Hydrogen and Minister for Public Works and Procurement, Queensland Government, Australia
- The Hon. Minister Stephen Patterson, Minister for Trade and Investment, Government of South Australia
- Dr. Sunita Satyapal, Director, Hydrogen and Fuel Cell Technologies Office, Office of Energy Efficiency and Renewable Energy, U.S. Department of Energy
- Max Correa, Head of the Hydrocarbons & New Energy Division, Government of Chile
- Dale Nally, Associate Minister of Natural Gas and Electricity, Government of Alberta
- Christian Pho Duc, Managing Director, H2 Projects, Smartenergy
- Oliver Bishop, General Manager – Hydrogen, Shell
- Allard Castelein, President & CEO, Port of Rotterdam Authority
- Sushil Purohit, President, Wärtsilä Energy
- Peter Adam, Head of Sustainable & Hydrogen Business Development, Siemens
- Randy MacEwen, President & CEO, Ballard Power Systems
- Dr Daniel Teichmann, Founder & Managing Director, Hydrogenious Technologies GmbH
- Jo Bamford, Executive Chairman, Ryse
- Nils Aldag, CEO & Co-Founder, Sunfire
- Dr Graham Cooley, CEO, ITM Power

•Andy Marsh, President & CEO, Plug Power Inc
