

Zoic Capital Leads Raise of Additional \$3M for HDT Bio Corp.

Funding Will Support Clinical Trials for Revolutionary COVID-19 Vaccine

SEATTLE, WA, USA, February 26, 2021 /EINPresswire.com/ -- Seattle, WA – February 25, 2021 – [Zoic Capital](#), a venture firm focused on early-stage medical technology investments, has led an additional \$3M in financing for [HDT Bio Corp.](#), bringing the company’s total seed-stage raise to \$6M. HDT will use the new funding to advance its revolutionary COVID-19 RNA vaccine candidate as well as two immuno-oncology applications.

According to Neal Mody, Managing Director at Zoic Capital, “This is a milestone year for HDT Bio as it transitions into clinical development with multiple assets and numerous market

“

Zoic has been a true partner to us every step of the way and will continue to help guide HDT Bio by sitting on our board of directors.”

Steven Reed, CEO of HDT Bio Corp.

opportunities worldwide. We look forward to watching HDT demonstrate the superiority of its RNA/LION platform across both vaccine and immuno-oncology applications.”

HDT Bio’s founders are world leaders in development of immune stimulants, including both therapeutics and therapy-enhancing adjuvants. One of the company’s core technologies, RNA/LION™, combines formulation and adjuvant ingredients to stabilize and deliver RNA to the immune system to stimulate responses for therapy or

vaccination.

“We are excited to close our seed round and to move forward with clinical development,” said HDT Bio CEO Steven Reed. “Zoic has been a true partner to us every step of the way and will continue to help guide HDT Bio by sitting on our board of directors.”
