

# New Book Investigates Over 1,200 U.S. School Shootings

WELLINGTON, FLORIDA, U.S.A.,  
February 27, 2021 /EINPresswire.com/  
-- -- February 14th, 2021 marked the  
third anniversary of the Parkland,  
Florida mass shooting at Marjory  
Stoneman Douglas High School. Florida  
librarian and MSD alumnus, Luis  
Aponte, has written a groundbreaking  
book chronicling every school shooting  
in the United States between January  
1st, 1990 and January 1st, 2020, with  
the goal of having at least one copy of  
the book in every school library in the  
United States by February 2022 and has launched a crowdfunding campaign to meet that goal.

According to Aponte, there were at least 70 school shootings in Florida between January 1, 1990 and January 1st, 2020 with at least one person injured or killed. With a total of 1,205 school shootings documented across the United States over a 30-year period, “School Shooting: A New Study” attempts to provide the most comprehensive study on gun violence in schools ever published. In order to help prevent future school gun violence, this study investigates deeper than the conventional list of dates, school names, and number of victims. “School Shooting: A New Study” features additional

relevant information, such as:

- Identifying the motives of the perpetrator
- Determining whether or not the firearm used was obtained legally
- The location on the school property or at the school-sponsored event where the shooting took place
- Potential known warning signs
- The perpetrator(s) criminal history
- The perpetrator(s) mental health history and history of drug use.

Aponte has launched a [Kickstarter](#) crowdfunding campaign to generate pre-orders of the book. With approximately 140,000 public, private, and postsecondary schools in the country, according to the National Center for Education Statistics, 10% of every school would set a fundraising goal of \$770,000. Aponte emphasizes that 100% of all the funds raised in the crowdfunding campaign will go toward publishing and delivering the book to school libraries so that they may be equipped with information that may help prevent future gun violence in schools. Updates on the book's publication will be posted on the crowdfunding site as well as [www.SchoolShootingBook.com](http://www.SchoolShootingBook.com).
