“

ClassFoods.com has no inventory, is a completely “hands off” drop shipping business, and our marketing reach is worldwide; no inventory, spoilage, or other traditional expenses.”

*Fred Mercaldo, CEO of Geocentric Media*

Also included are Monthly Subscription Clubs, along with keyword heavy brands that will allow each portfolio to excel in Google search. Consumers do not have ready access to fresh Seafood, Prime Steaks, Salmon and more in their local grocery stores. They may be able to buy choice cuts, or frozen seafood; but none match the highest qualities that these networks will be able to deliver, with overnight or 2 day shipping, right to their doors without ever having to leave their homes.

Fred Mercaldo, CEO of [Geocentric Media, Inc](#), states: “The world is changing. In 2019, 70% of purchases were done in

brick and mortar stores, with 30% done online. Now, the numbers have reversed: 70% of all purchases are online; 30% in brick and mortar. By 2023, it is projected to be 83% online; 17%

brick and mortar. We have noticed the birth of “Ghost and Cloud Kitchens” and the hundreds of millions of dollars that have been raised to support their concept; ours is better, and here is why: they still have a physical location, overhead, employees, equipment, inventory, spoilage, insurance, and everything associated with a traditional restaurant...plus they have a limited delivery area, usually 5-10 miles in a specific geographic area.

[ClassFoods.com](https://www.classfoods.com) has no inventory, is a completely “hands off” drop shipping business, and our marketing reach is worldwide; no inventory, spoilage, or other traditional expenses.”
