

# Fulton County Schools Move from Google to Office 365 with Forsyte I.T. Solutions

*One of the largest school districts in the state of Georgia moves from Google to Office 365 for better services and secure collaboration across the district.*

ATLANTA, GA, UNITED STATES, April 20, 2021 /EINPresswire.com/ -- In its latest technology move with Microsoft Gold Partner, Forsyte I.T. Solutions, [Fulton](#) County Schools has successfully [migrated](#) 32,000 individual user accounts composed of 29 TB of data from Google Workspace for Education to Office 365 in an effort to increase security and collaboration capabilities across its district.

Fulton County is a known leader in educational digital transformation and has focused on optimizing its services and solutions for faculty, students, and staff for years. When the effects of the 2020 global pandemic caused school closings in a move to distance learning, Fulton was prepared with both intermediate and long-term plans for support. At the time, Fulton worked some in Google Workspace and Chromebooks and some in Office 365. In an effort to leverage their investment in Microsoft technology and enhance collaboration by eliminating overlapping third-party solutions, the long-term plan named Office 365 as the optimal platform for all users and it was only a matter of time before the project plans could move forward with Forsyte. Fulton leveraged Forsyte's professional services to help migrate the existing structured and unstructured data from Google Workspace to Office 365: OneDrive and Teams.

[Read more](#) about Fulton's journey from Google to Office 365 and take the guesswork out of substantial migrations such as these with Forsyte I.T. Solutions.

## Fulton County Schools completes a large migration from Google Workspace with Partner Forsyte I.T. Solutions to become an entirely Office 365 technology-supported district

In an effort to streamline its vast school district and prepare for future technology deployments and innovation, Fulton County Schools recently completed a 32,000-user migration from Google to the Office 365 platform. The decision to eliminate Google and Chromebooks from its district and become an all-Microsoft 365 district has brought its extensive number of schools and users together under one technology umbrella. As a result, this migration has strengthened Fulton's technology toolbox and advanced security measures for its large student, teacher, and administrative population.

The Education industry has learned a lot over the past year and Fulton County Schools understands the formula for success. Always one step ahead, Fulton continues to prepare, plan, and roadmap activities for a sustainable and consistent technology journey for the betterment of its users and user experience.

Working with expert security and productivity partner, Forsyte I.T. Solutions, Fulton receives richer assessments, technology recommendations, managed services to continue offering advanced technology support.

### Fulton County Schools At-a-Glance

**College:** Fulton County Schools

**Website:** <https://www.fultonschools.org>

**Size:** 95,000 Students; 14,000 Faculty and Staff

**Location:** Atlanta, Georgia

**Industry:** K-12 Education

**Implementation:** Google to Office 365 Migration

The migration itself went a lot easier than was expected. Coordination was something we expected to be a challenge on our part, but the technical piece was quick and efficient"
