Treasure and Shipwreck Recovery, Inc. (BLIS) is a [treasure company](#) built on decades of shipwreck recovery and experience. Operations will be very streamlined, so SGA expenses will be very limited. All recovery work is being done with existing permit holders as contractors to carry out the work, as well as new sites with partners. The BLIS gaming division is more independent and will be done outside of recovery and asset acquisitions of treasure from many sources, to build assets, sell some, and keep much for the company's own holdings. The BLIS goal is that 80% of all monies are used for operations, equipment, etc. for

actual search and recoveries.

BLIS has a very attractive share structure with under 9 million shares outstanding, of which 7 million are held in control holdings and restricted to insiders, and less than 1 million are free trading, in limited deposits. BLIS management intends is to keep its share structure at 15 million or below for the next 2 years.

Additionally, BLIS has no convertible debt. Currently operations are being funded through the current money raise for operations and for the gaming division in two separate segments. This is well underway for wreck explorations throughout the whole dive season of 2021. With a 71 foot mothership, and other dive boats BLIS has financial coverage for operations. BLIS may raise capital for overseas recoveries in certain undisclosed areas, but not via convertible debt as other companies normally do.

BLIS has numerous revenue routes. One is to keep many artifacts and treasure as assets, to be shown in a planned BLIS location and museum. BLIS has already gathered significant recovered treasure. Second is the sale of treasure and artifacts through certain auction houses and arranged product sales for coins, etc. Third is private collector sales. Fourth is road show and museum show fees. Finally, holding rights to television and future gaming development. Currently, BLIS has many assets recovered, and under holdings.

□□Current and Planned Shipwreck Operations

Three Wrecks have been initially worked and will be worked, which have constantly yielded valuable artifacts, on an ongoing basis, while dozens of others will be surveyed at that location. All expeditions will be filmed for publicity, and for future television rights and production by partners in the industry.

About Us

Treasure & Shipwreck Recovery, Inc.(TSR) is a Shipwreck Treasure Company with ongoing and future sites for the search and recovery of priceless treasure and artifacts from historic shipwrecks throughout the Caribbean. Currently, the Company trades under the Symbol BLIS, subject to a name and symbol change with FINRA. We are beginning first expeditions within days, going around Florida, the Keys and onto the first primary site at Cape Romain, South Carolina.

BLIS Info

It's estimated that, beneath Earth's waters, 3 million undiscovered shipwrecks exist. BLIS has access to decades of research and proven wreck site targets, and will be exploring, and salvaging targeted ones. From 1500 to 1900, some 400 years, fleets of Spain, England, France and Pirates, plied the Caribbean bringing massive amounts of treasure, in gold, silver, emeralds, jewelry and artifacts. Every year, probably dozens to hundreds of such vessels sunk for numerous reasons, filled with treasure. BLIS has the inside track on adventure to find some of these riches. More gold lies in ships on the ocean floors than exist in all the holdings of all the countries of the world.

□ Gaming and Television Plans

BLIS intends to become a worldwide set of media brands for adventure, treasure and fulfilling the dream of everyone who ever wanted to have the adventure of a lifetime. BLIS has an existing gaming development relationship for an envisioned App game based on treasure hunting, and a television series will be worked during the next year. Constant filming of crew work and recovery will be published of ongoing operations via social media.

□ BLIS Announces Famed Ship Treasure Hunter Kane Fisher as New Operations Manager

On March 2nd BLIS proudly announced Kane Fisher, of the Atocha shipwreck fame, as well as many other historic wrecks throughout history, as the company's new Operations Manager for all projects and recovery work. Kane has already taken out, led the BLIS team, and been responsible for major projects on treasure recovery sites. Kane is now leading BLIS expeditions on searches of new sites and known sites over the last two months. BLIS will also be partnering on known sites Kane has under his rights for further recoveries and finds.

Kane Fisher has been involved in treasure recovery and finding since childhood, with his famous father, Mel Fisher. Over 50 years Kane has been involved in the recovery of wrecks including the most valuable shipwreck in U.S. history the Spanish galleon Nuestra Senora de Atocha, which has valued recoveries over approximately \$700 million dollars. Kane has been involved in dozens of wreck site finds and recoveries off Florida and responsible and involved for an estimated over \$1 Billion in wreck recoveries, not just off Florida, but throughout the Caribbean. Other recoveries include being involved with more the rich finds of the Santa Margarita, a sister ship of the Atocha lost in the same storm of 1622.

BLIS management knows that together with the Galleon Quest game, the reality television show Galleon Quest would be complimentary in the marketing of the Company's recoveries, as well as the game and television alike. All of this should also be very instrumental in bringing eyes to the BLIS for the shareholders' benefit.
