

Bika Open Source Cannabis LIMS

Bika Cannabis development moving ahead

CAPE TOWN, WESTERN CAPE, SOUTH AFRICA, March 3, 2021 /EINPresswire.com/ -- [Bika Lab Systems](#) is happy to announce that we were awarded a grant to develop Bika Cannabis in the Department of Trade, Industry and Competition's Support Programme for Industrial Innovation, dtic SPII

A mouth full, but a big part of the project budget is provided for. We are already well under way to first milestone, Requirements Analysis, Functional and Technical Specification

[Bika Cannabis adds workflow and configuration](#) for commercial and inhouse analysis of medicinal and recreational marijuana products to Bika LIMS functionality

Collaboration

Cannabis testing laboratory [Qure](#) is currently prototyping a standard Bika Senaite LIMS installation configured for cannabis analysis and we would like to work with more labs in the US and Canada where regulatory seed-to-sale tracking systems are interfaced

Please contact us for collaboration opportunities. Interfacing your cannabis analysing instruments may also be considered for the grant - please share specs or example results files
