About Peter Lake

Peter Lake is a New York City based singer-songwriter who revels in anonymity. His musical influences include Curtis Mayfield, Motown, Billie Eilish and Rūfūs Du Sol. Therefore, it's no surprise that he has not stuck to one genre, dabbling in rock, pop, indie, and house. Lake's philosophy of music-making is that by combining genres, the range of song creation has increased. A song that successfully incorporates and connects the positive aspects of different

musical styles has the potential to be more universally appealing than any song in history. The opposite is also true. For the past few years, Lake has been in the studio writing and developing his craft. 2021 is the year Lake plans on releasing some of those recordings to the public starting with "Vaccinate With Love (Dedicated To Dr. Osterholm)."
