

Crossvale's Managed IT Services Help Businesses Improve Efficiency and Reduce Cost

One of the nation's leading IT service companies is helping businesses save money while boosting efficiency.

DALLAS, TEXAS, UNITED STATES, March 9, 2021 /EINPresswire.com/ -- Representatives with Dallas/Fort Worth-based [Crossvale](#) announced today that its managed IT services are helping businesses improve efficiency and reduce cost.

["Our management of your IT environments"](#) provides you the flexibility and customization to create scaling rules that we will ensure are enforced," said Todd Millard, vice president of sales and spokesperson for Crossvale. "A stable environment is the first requirement to support your always-on customer base. 24/7/365 availability, proactive maintenance, patching, and upgrading are also essential. Our team is ready to ensure the always-on customer enjoys the most stable environment."

The company, founded in 2001, has earned a customer reputation for outstanding performance across the United States and 20 other countries, establishing thorough expertise at transforming technologies with best practices into measurable business improvement.

In addition, the company is also now offering free quotes for migration to RHEL 8. Its approach to simplifying the migration of enterprise IT ecosystems results in well-defined lifecycle management through automated remediation, consistent configuration management, and streamlined, centralized control of all Linux environments.

Millard explained that by choosing the status quo and ELS, software costs increase by 50 percent to run old software.

"By leveraging Ansible and Smart Management and move to RHEL 8, you build an automation and management platform on a modern OS," Millard stressed.

Quantifiable results, according to Millard, include:

- 63 percent reduction in unplanned downtime

- 88 percent more productive IT teams
- 82 percent lower infrastructure costs
- 85 percent reduction in cost of operations

Crossvale, which has been awarded the Red Hat North American Partner Award for outstanding channel contributions for open source software, specialties are:

- Digital Transformation
- Enterprise Architecture
- Red Hat OpenShift (PaaS)
- Red Hat OpenStack (IaaS)
- Business Process Management
- Service-Oriented Architecture (SOA)
- Integration
- Cloud, Hybrid, and On-Prem solutions
- MEAN Stack (Mongo, Express, Angular Node)

Crossvale has operations in the USA, UK, and Spain.
