

Advanced modalities and formulation discussed at Injectable Drug Delivery Conference 2021

SMi Reports: SMi Group are delighted to invite you to attend the Injectable Drug Delivery which is returning on 12th - 13th May 2021 as a virtual Conference.

LONDON, LONDON BRIDGE , UNITED KINGDOM, March 8, 2021 /EINPresswire.com/ -- Following on from the success of the last conference, [Injectable Drug Delivery](#) will once again provide a unique opportunity to discuss new advancements and showcase the latest innovations within the industry.

The 3rd annual conference promises to be even bigger and will play host to an international audience of drug delivery, medical device and PFS experts, providing delegates with invaluable peer-to-peer networking time with key industry players.

The brochure with the full agenda and speaker line up for the main conference is available to download www.injectable-drug-delivery.com/einpr3

The upcoming conference will cover pivotal topics including:

- Advanced modalities and formulation in the injectable space
- A regulatory outlook of the Drug/Device Combinations (DDC) products space
- Challenges for development of long acting injectables: focus on formulations of fragile molecules
- DMC challenges of formulation and drug product development of biologics
- Regulatory requirements for – Medicinal product incorporating a drug delivery device component in context with EU MDR
- Beyond Article 117
- A case study of EU MDR Art 117 implementation for drug-device combination products
