study group, or a camping trip, the SLIQ Bubble is an ideal solution.

"Only 15% of our population have been vaccinated against COVID-19 as of today, according to CDCP. With new COVID strains emerging and questions regarding the efficacy of vaccines, this still poses substantial risks. Our aim is to support families, restaurants and schools across the country, as they navigate through this uncertain period,

from social distancing requirements to reduced operating capacities and unpredictable weather conditions. Schools and restaurants have been leveraging the benefits of the SLIQ Bubble Tent to set up more permanent experiences, for example, study group bubbles and dining experiences. We want to ensure that unique, outdoor dining experiences are still made possible, in a fun, safe and protected environment," said Rishi Mahtani, Marketing Manager of SLIQ.

The SLIQ Bubble Tent is available for purchase at [www.gosliq.com](http://www.gosliq.com) for \$299.
