

PSS UROLOGY Announces Exciting NEW Quick-Fire Series™ Bipolar Electrodes

PSS Urology offers the most Complete Line of Brand Neutral products for Bipolar Resection with unique Clinical Advantages and an excellent Value Proposition

SPOKANE VALLEY, WASHINGTON, UNITED STATES, March 11, 2021 /EINPresswire.com/ -- [PSS Urology](#) Quick-Fire™ Bipolar Electrodes continue to enjoy rapid adoption in the Bipolar Resection Market. Surgeons, hospitals and surgery centers report excellent clinical outcomes and significant savings.

PSSU recently launched exciting NEW ADDITIONS to the Quick-Fire™ Bipolar Electrode family with unique capabilities to further assist Urologists.

SuperNoMa™ Band-Type Bipolar Electrode

- The SuperNoMa™ utilizes PSSU Gen II Alloy and a unique new design for surgeons who prefer a band-type electrode for TURP
- The SuperNoMa™ delivers smooth cutting and excellent hemostasis
- Now available for Olympus Bipolar Resectoscopes

PreCise UltraThin™ Bipolar Loop Electrode for TURBT

- The PreCise UltraThin™ utilizes superior Gen II Alloy to create an extremely precise bipolar loop for bladder tumor resection and bladder cancer staging
- The PreCise UltraThin™ is highly effective at much lower cut/coag settings, further increasing precision and decreasing thermal effect for excellent control and pathology, especially when combined with PDD or NBI
- The PreCise UltraThin™ is compatible with Olympus, Storz and Wolf and is designed for the
