# CampTek Software Launches Citizen Development as a Service

CampTek Software's Citizen Developer Packs provide the most efficient way to launch department and/or company "worker enablement software" using RPA, AI and ML.

PORTLAND, ME, UNITED STATES, March 11, 2021 /EINPresswire.com/ -- CampTek Software the leader in Robotic Process Automation (RPA) announced today that it will provide a first to market, Citizen Development as

CampTek Software's Citizen Development as a Service

Service. With proven results using Attended Automation powered by RPA, AI & ML in multiple industries the company continues to lead by providing an innovative service to support customers on their automation journey.

"We believe in a post Covid world, there is a massive need to empower workers to make them more productive but, in a cost-effective way. The UiPath StudioX is the ideal "no code" and "easy to use" platform that most non-technical employees can embrace. We believe our Citizen Developer Packs provide the most efficient way to launch department and/or company "worker enablement software." We will provide the software, onboarding/training, Support Helpdesk and Bot Development services to achieve quick efficiency wins. Our goal is to support our customers as they start and continue on their automation journey." Peter Camp, CTO and Founder, CampTek Software.

Review the Datasheet for CampTek Software's Citizen Development as a Service below.

Recent research that states in an eight-hour day, the average worker is only productive for two hours and 53 minutes. In addition, employees, on average, use 27% of their day doing skilled work. **Asana Anatomy of Work Study

How can RPA Citizen Development help?
RPA citizen development enables a self-service approach to accelerating business transformation and automations of everyday work tasks. A citizen developer is a non-professional developer

who builds no code/low code applications for use by themselves and to share with others on their desktops.

Launch your RPA Citizen Development program with a proven agile methodology to achieve rapid success. You can build it but also have the expertise, experience, and full support of CampTek Software in your corner throughout your journey.

CampTek Software Citizen Developer as a Service Packs

Citizen Developer Starter Pack ($9500)
- Per user UiPath StudioX
