Dr. Kelly Nguyen, PharmD, was named 2020 North America Fellow, an annual international entrepreneurship competition that aims to drive change for social good. One of the vital criteria is to be a woman entrepreneur who has a strong and sustainable social or environmental impact. The company supports multiple [United Nations Sustainable Development Goals \(SDGs\)](#). The 21 fellows were selected among 1,200 applicants from 162 countries representing seven global regions.

“In one year, the pandemic has wreaked havoc across the world; devastating lives, industries, and global markets.

Our healthcare system is overloaded. Patients with chronic diseases are at highest risk, yet often not prioritized due to hospital overcapacity. Care delivery models are abruptly changed to remote care services,” Dr. Nguyen stated.

DrKumo's multi-award-winning solution powers the next-generation massively scalable continuous real-time remote patient monitoring (RPM) that features multicast data live streaming for chronic disease management, acute care, post-operation, and hospital-at-home

programs to address hospital overcapacity issues and costs in healthcare, reduce health inequity, and optimize patients' health.

"DrKumo's RPM technology solutions reduce the burden on healthcare systems and hospital readmissions, increase patient quality of care and overall health outcomes," Dr. Nguyen.
