DICE Dental offers dental implants, dentures, extractions, and crowns in Springfield, PA

Dental implants are a popular solution for replacing missing teeth. A titanium implant is placed into the jawbone and covered by a porcelain crown that's color-matched to a patient's existing teeth, giving their smile a more natural, seamless look.

“

We work closely with patients to ensure they have a pair of dentures that they can wear comfortably and confidently.”

“Their natural appearance, paired with the durability, have made dental implants the go-to solution for millions of Americans,” says Dr. Alger. “They improve the ability to eat and speak, they strengthen your jawbone, and they can even be used to stabilize dentures.”

[Dentures in Springfield](#) are also available from DICE. Conventional, partial, full, and implant overdentures are available, with conventional dentures starting at only \$499.

“We work closely with patients to ensure they have a pair of dentures that they can wear comfortably and confidently,” adds Dr. Alger.
