Solar Integrated Roofing (OTC: SIRC) Files Form 10, Finalizing Preparations in Advance of Near-Term Application to Uplist to the OTCQB Venture Market

EL CAJON, CALIFORNIA, UNITED STATES, March 12, 2021 /EINPresswire.com/ -- Breaking Solar stock news for Solar Integrated Roofing Corp.

(OTC: SIRC) from Investorideas.com Newswire and RenewableEnergyStocks.com: Solar Integrated Roofing Corp. (OTC: SIRC), an integrated, single-source solar power and roofing systems installation company, today announced that it has finalized its transition to a fully reporting company with the completion of PCAOB audited financial statements for the fiscal years ended February 29, 2020 and February 28, 2019 and the filing of a Form 10 Registration Statement with the Securities and Exchange Commission.

"The completion of the audit process and submission of a Form 10 to become a fully reporting company is truly a watershed moment and a momentous milestone for our team and valued shareholders," said David Massey, Chief Executive Officer of Solar Integrated Roofing Corporation. "These steps will provide additional transparency and assurance to our reported financials for investors evaluating our company. This status also opens us up to a new level of institutional investors and to potentially wider interest from the capital markets community.

"Looking ahead, the audit sets the stage for us to file an application to become listed on the OTC Market's OTCQB® Venture Market in the near-term, with the goal of uplisting to the Nasdaq. We anticipate the increased visibility from an OTCQB listing, when paired with our fully reporting status, could offer significant value as we continue to focus on becoming a cohesive, nationwide platform company for roofing and solar installers. I look forward to the months ahead as we continue our rapid pace of operational execution in an effort to build sustainable value for our shareholders over the long-term."
