Da'Salt Water Spray instantly adds texture and body to fine or thin hair. This spray will bring hair to life without a visit to the salon. The brand creators claim that the product defines natural waves and enhances curls. Plus, it has a light hold which ensures that the curls or waves last all day without adding weight to the hair and making it flat.

The product can be used by men and women. But the manufacturers specifically had men in mind because they believe men can get that fresh from the beach look without their hair looking messy. And they can do it right at home with minimum fuss.

For women, whose hair doesn't curl or wave naturally, the product can be used with curlers to achieve the desired results. Alternatively, by scrunching the hair with their hands after applying the [salt water hair spray](#) to their hair.
