Depression and mental health problems are no longer trivial issues and are very prevalent in people of all ages worldwide. \* According to the World Health Organization, depression is a leading cause of disability and has life-altering effects. Severe depression can result in suicide, a leading cause of death in teenagers and people in their twenties.

Depression is caused by a complicated interaction of social, psychological, and biological factors. Still, the condition is manageable by personal efforts, proper guidance, and using prevention techniques. These methods can lead to self-improvement, and everyone dealing with this situation can live a dignified life. FivebalanceUSA's mission is to support all these people who desire to have a prosperous and productive life.

FivebalanceUSA is on track to meet and exceed their Q1 goals for 2021. With a couple of slight modifications for the better.

All goals set for Q1 as listed on the roadmap on the Company website have been met as of writing, and with a few weeks left for Q1, and only the masternodes goals left on the roadmap, the green light has been giving to start on the goals for Q2.

[NFT'S](#) are now available in the Fivebalance marketplace.

The marketplace is still currently under major development, but some items including original Graffiti artwork from a N.Y.C Black book is now available for sale.
