

North Carolina US Navy Veterans Lung Cancer Advocate Has Endorsed Attorney Erik Karst of Karst von Oiste to Ensure Compensation for a Navy Veteran with Lung Cancer in North Carolina-If He Had Navy Asbestos Exposure

CHARLOTTE, NORTH CAROLINA , USA, May 14, 2021 /EINPresswire.com/ -- The North Carolina US Navy Veterans Lung Cancer Advocate says, "We have endorsed, and we highly recommend attorney Erik Karst of the law firm of Karst von Oiste to make certain a Navy Veteran with lung cancer in North Carolina gets compensated-if during their time in the navy they had significant exposure to asbestos. A financial compensation settlement package for a person like this might exceed \$100,000 and the claim does not involve suing the navy. The typical person we are trying to identify is over 60 years old-and it does not matter if they smoked cigarettes. The Navy Veteran was probably exposed to asbestos prior to 1982 on a navy ship, submarine or at a shipyard as attorney Erik Karst of the law firm of Karst von Oiste is happy to discuss anytime at 800-714-0303.

"If the individual we have just described sounds like your husband or

North Carolina

dad and his lung cancer diagnosis has occurred within the last few years-please take your loved one's financial compensation seriously and call attorney Erik Karst of the law firm of Karst von Oiste at 800-714-0303. Most people we help are stunned to learn the \$30 billion dollar-asbestos trust funds were set up for them too."

The North Carolina US Navy Veterans Lung Cancer Advocate's free services are available to people with asbestos exposure lung cancer or mesothelioma in Charlotte, Raleigh, Greensboro, Winston-Salem, Fayetteville, Asheville, Wilmington or anywhere in North Carolina. <https://NorthCarolina.USNavyLungCancer.Com>

High-risk work groups for exposure to asbestos in North Carolina include Veterans of the US Navy, civilian workers at Fort Bragg, a worker at one of North Carolina's dozens of power plants, steel mill workers, pulp, or paper mill workers, public utility workers, factory workers, plumbers, welders, insulators, millwrights, electricians, coal miners, auto mechanics, machinists, and construction workers. Typically, the exposure to asbestos occurred in the 1950's, 1960's, 1970's, or 1980's. www.karstvoniste.com/

According to the American Cancer Society for nonsmokers who have been exposed to asbestos in their workplace the risk of lung cancer is five times that of unexposed workers. <https://www.cdc.gov/cancer/lung/statistics/index.htm>.

The US Navy Veterans Lung Cancer Advocate says, "If your husband, dad, coworker or neighbor has just been

diagnosed with lung cancer and you know they had significant exposure to asbestos in the navy, at a shipyard or while working at a factory, at power plant, public utility, or as a plumber, electrician welder, mechanic or any kind of skilled trades group in any state please have them call us anytime at 800-714-0303. Most people like this never get compensated-even though the asbestos trust funds were set up for them too. We are trying to change this sad fact."

<https://USNavyLungCancer.Com>

States with the highest incidence of lung cancer include Kentucky, West Virginia, Maine, Tennessee, Mississippi, Ohio, Indiana, Louisiana, Arkansas, Missouri, North Carolina, Rhode Island, Alabama, and Delaware. www.karstvonoste.com/
