

Invite from Justin Mason-Home, Chair at SMi's 5th Annual Highly Potent Active Pharmaceutical Ingredients 2021

SMi Reports: Chair of the conference, Justin Mason-Home, invite to join the 5th Annual Highly Potent Active Pharmaceutical Ingredients Conference on 10-11 May

LONDON, LONDON, UNITED KINGDOM, March 19, 2021

/EINPresswire.com/ -- SMi Group are delighted to share Justin Mason-Home, Director at HPAPI Project Services Limited, personal invitation letter, as

chair of the [5th Annual Highly Potent Active Pharmaceutical Ingredients Virtual Conference](#). The two-day event will convene on the 10th and 11th May 2021.

Justin Mason-Home is an organic chemist with extensive health, safety, environmental and chemical engineering experience in senior technical, legal and commercial aspects of the biopharmaceutical industries. Justin's wealth of experience and expertise makes this a highly anticipated event.

Interested parties can attend the conference by registering at <http://www.highlypotentapi.com/PR3>

£499 for pharmaceutical and biotechnology firms and £999 for vendors and commercial firms to join the 2-day conference.

An excerpt of Justin Mason-Home's invitation to the [conference below](#):

"There has never been such a focus on Pharma!

'Now in its 5th year, SMi's HPAPI conference will explore developments and advances in the field of highly potent APIs. This 2-day agenda will bring together expertise from individuals in multiple disciplines in the field and offer a series of presentations through which you will gain insights into the key drivers of this ever-growing industry. Hear from leading pharmaceutical and biotech companies, regulatory experts and academia on a wide variety of topics, including best practices

SMi Group presents the 5th annual conference...

Highly Potent Active Pharmaceutical Ingredients

10 - 11 May 2021 | Virtual Conference

Justin Mason-Home
Director
HPAPI Project Services Limited

Presentation on: 'PPE in COVID-19 vs Engineering Controls in Pharma'

www.highlypotentapi.com

in occupational toxicology, innovations in containment and facility design, and insights into cleaning validation methods.

Delegates stand to gain many valuable insights from this [event including](#):

- Perspectives on how engineering controls could be used to protect healthcare workers during COVID-19
- Best practices in hazard assessment and occupational toxicology
- Industry insights into strategic considerations for scaling up HPAPI manufacturing
- Future trends in automation and robotics within pharmaceutical manufacture and technologies for protecting operators from hazardous substances
- Case studies exploring cleaning validation methods

As chair of this event, I look forward to welcoming delegates to this must-attend live virtual conference this May."

This is an essential event for those wanting to hear the latest insights and updates from industry leading experts in the field like Justin Mason-Home.
