

eLeaP Software Announces Critical New On-the-Job Training (OJT) Tracking Module

eLeaP has officially announced the integration of an on-the-job training tracking (OJT) module to the company's groundbreaking learning management system (LMS).

LOUISVILLE, KENTUCKY, UNITED STATES, March 22, 2021

/EINPresswire.com/ -- eLeaP Software, an innovator in the learning management software space, has today announced the addition of an [on-the-job training \(OJT\) tracking feature](#) for the company's [Learning Management System](#) (LMS). With this new feature, users can easily track OJT training via a broad range of metrics, close skills gaps, ensure compliance with industry and government regulations, and achieve other crucial milestones.

“

OJT has long been a critical consideration for training both new and existing employees”

Marsha Weobong

“OJT has long been a critical consideration for training both new and existing employees,” notes Marsha Weobong of eLeaP. “However, it has always been difficult to track this type of training simply due to its informality and the lack of integration with [modern learning management systems](#). Our new tool breaks that paradigm, enabling HR and other stakeholders to easily track on-the-job training.”

The new feature offers the ability for users to track on-the-job training by skill, task, date, user, competency, domain, and much more. Users can also easily modify fields, add custom fields, and more. Each field offers the ability to filter reports and dive into training-related metrics.

eLeaP also makes it simple to add trainee records. The new module supports adding records manually by name, but they can also be added in bulk using the convenient upload tool. Users simply download a template file and then use that to create custom data points that matter to

them before uploading. Once uploaded, users can access all records, or dive into individual tracking for an in-depth breakdown that shows user time, skills, tasks, and other important information.

“On-the-job training offers immense benefits, from skill redundancy across different departments to career progression, and more,” Marsha went on to explain. “We made it simple for users to add and customize information, and then track trainee efforts in meaningful, relevant ways.”

A graphic with a purple background. It features several stylized human figures in various colors (orange, blue, green, yellow) interacting with digital devices like laptops and tablets. There are also icons for a calendar, a folder, and a Wi-Fi signal. The eLeaP logo is in the bottom left corner. Text on the right says "Empower team members and increase productivity with OJT tracking." Below the graphic, the text "Empower team members and increase productivity with OJT tracking" is repeated in a white box.

Empower team members and increase productivity with OJT tracking.
