

Jatheon Technologies Publishes Education Compliance Checklist for Electronic Records

Jatheon Technologies Inc. has compiled a checklist for electronic record retention and management intended for educational institutions, primarily in the US.

TORONTO, ONTARIO, CANADA, March 24, 2021 /EINPresswire.com/ -- [The Education Compliance Checklist for Data Archiving](#) can be used by compliance managers, legal staff and school administration to ensure that the communication records like email, attachments, social media pages and call records are aligned with and retained in accordance with the major regulations relevant in K-12 and higher education in the US. These laws

include FERPA, Freedom of Information Act and Sunshine Laws, HIPAA, GLBA, as well as data protection best practices. The checklist is available on Jatheon's website and is free to access and download as PDF.

“

The main purpose of this checklist is to help the IT, legal, HR and compliance departments to check their compliance status and choose the best data archiving products.”

Ivana Nikolic

Ivana Nikolic, Jatheon's Marketing Director, explained why the company decided to compile this resource: “Jatheon specializes in email, social media and mobile archiving software for regulated industries in the United States and we've had excellent cooperation with school districts, colleges and universities in the last fifteen years that we've been on the market. We felt that our expertise in large-scale data archiving, combined with the knowledge of [regulations in the education industry](#), could help multiple teams to streamline their data retention processes. The

main purpose of this checklist is to help the IT, legal, HR and compliance departments to check their compliance status and choose the best data archiving products.”

The checklist was compiled consulting laws and research by industry experts and it's divided into five chapters, each focusing on a particular law. The checklist also contains a bulleted list of criteria that need to be met in order to achieve compliance, as well as the examples of violations and how to avoid them. The last chapter outlines the education [data archiving software](#) requirements and specific features that the software needs to contain in order for the school to comply with the given regulations.

ABOUT JATHEON

Jatheon Technologies Inc. was founded in 2004 to empower companies in their efforts to ensure email compliance, facilitate eDiscovery, improve email management and alleviate storage issues.

Today, Jatheon is a leader in the archiving industry, with 6+ billion processed messages and unique on-premise and cloud archiving solutions. The company continues to raise the bar throughout the industry with the latest enterprise-grade cCore archiving appliances, a powerful archiving, retrieval and dynamic monitoring software and best-in class tech support, Jatheon Care. In 2017, Jatheon designed Jatheon CTRL – a social media, mobile and IM archiving add-on that smoothly integrates with the company's proprietary email archiving software. In 2018, the company launched Jatheon Cloud – the next-generation cloud email archiving solution best suitable for small and medium-sized organizations. In 2019, Jatheon launched Jatheon Archive, an email archiving and management mobile app that supports both Jatheon cCore and Jatheon Cloud.
