“We hope to drastically improve these numbers over the next 3 to 6 months as Covid-19 decreases and the economy returns to normal. Tightened credit markets and slower-paced private equity that is becoming more risk-averse also affected some of our efforts. We also instituted some joint ventures and added two more AI engines to

ramp up our processes, and we believe this will substantially affect activity.” Said Jonathan Pappie, CEO of VX Global Inc.

The firm also recorded over 88 active accounts, 14 hours of engagement, and over 1500 page views on its site for the month-end.

“As we grow we hope to triple these numbers each month. However, we are off to a good start given the economic environment. Much of our effort this last quarter has been spent developing relationships that will lead to traction for some of our client bases. Moving forward we will be solely focused on building a strong, vetted, and participating [investment](#) base. We will also be syndicating our GP and LP Offering for our high yield, debt-equity first look fund. We will be releasing that just after April 17th, 2021.” said Mr. Pappie.
