

Invite from Jim Polarine and Geeta Singh, Co-Chairs to join Pharmaceutical Microbiology West Coast Virtual Conference

SMI Reports: Co-Chairs Jim Polarine and Geeta Singh at SMI's 4th Annual Pharmaceutical Microbiology West Coast Virtual Conference invite microbiologists to join

SAN DIEGO , CA, UNITED STATES,
March 25, 2021 /EINPresswire.com/ --
Jim Polarine, Senior Technical Service Manager at STERIS Corporation and Geeta Singh, Sr. Pilot Plant Technical Specialist at Genentech invite microbiologist with a co-chair [invitation letter](#) to join [SMI's 4th Annual Pharmaceutical Microbiology West Coast Conference](#).

This [event will convene virtually](#) on June 17th and 18th 2021, with two half-day workshops on the June 16th.

The co-chairs bring over 35+ years combined wealth of experience and knowledge to the conference, Jim Polarine has over 20 years of experience with the STERIS Corporation. His current technical focus is microbial control in cleanrooms and other critical environments. Geeta Singh has over 16 years of experience in Pharma Technical Development and has experience in both mammalian and bacterial cell culture from lab to pilot plant scale.

Interested parties can attend the conference US\$399 for pharmaceutical / biotechnology firms and at US\$999 for vendors / commercial firms on <http://www.pharma-microbiology-usa.com/PR2>.

Co-chairs' invitation letter excerpt below:

"Top scientists in industrial microbiology and contamination control will be showcasing the latest capacities for particle monitoring, sanitizer utilization, and bacteria detection in facilities. Experts in compliant manufacturing will give insight into the regulation and the best strategies for current good manufacturing practice."

“These critical principles will be discussed alongside some of the newest schools of thought in the industry: such as the move to in-process release testing, in addition to the crucial consideration of integrating sustainability into operations.”

“Our women in science panel discussion will be breaking-down the essential aspects of growing successful women microbiologists, and our workshop will address the important field of data integrity: leading our delegates through the key causes and solutions in best data practice for environmental monitoring.”

This event will bring together microbiology experts to discuss novel approaches and best practices for tackling current industry contamination control challenges. Microbes such as bacteria, fungi, parasites and viruses that can contaminate current and novel pharmaceutical products or therapies may stem from various sources such as raw materials and human operators, are taken into consideration.

There will also be two half-day interactive workshops on Wednesday June 16th.

Workshop A is on Data Integrity in Environmental Monitoring: Causes and Solutions, led by Ziva Abraham, CEO/President, Microrite and Morgan Polen, SME, Cleanroom Contamination Control Expert, Microrite.

Workshop B is on Pharmaceutical Microbiology for Non-Microbiologists, led by Dr. Ed Balkovic, Subject Matter Expert Microbiologist (retired), Contamination Control Department, Sanofi Genzyme.

The full agenda, speaker line-up and brochure can be viewed online at <http://www.pharma-microbiology-usa.com/PR2>.

The conference is proudly sponsored by: Associates of Cape Cod, bioMérieux, Lonza, Mettler Toledo, Microcoat and Millipore Sigma.
