About Artsicle: Artsicle was born out of owner Nancy Pedulla's love of vintage, especially ephemera (paper and other items that were made to be a "one and done" item, but luckily survive today with wonderful graphics and designs).

"My greatest desire is for vintage lovers, whether they be scrapbookers, vintage collectors, or those looking for something a little out of the ordinary, to discover a way to incorporate a vintage aesthetic into everyday items", Nancy said. "My designs are born out of not only my love

of vintage but my desire to redesign the best of what vintage has to offer with the convenience of today's materials. By rethinking vintage in this way, those who love these graphics or those who are new to this vintage world can express their individual style through their home decor, clothing, and gift-giving. One of the greatest things about this collection is that customers can personalize items to make amazing gifts that will be the hit of any baby shower, birthday party or other special occasion. I think this collection is a great addition to Artsicle's unique offerings"
