Peter also has in-depth experience with EDI, Procure To Pay, and Expense Management. Mr. Singh is the Western Region Account Executive for Canon based in California. He joined the Canon team nine years ago and comes with a background in Oracle Technology and ERP Systems. Mr. Singh's expertise includes data consolidation, integration, and

management; Business Intelligence and Enterprise Performance Management; ERP, CRM, and Analytics

This session will highlight the six biggest trends that accounts payable leaders will face in 2021 and the steps they should take to address them. Automation helps an organization's bottom-line through cost savings and efficiencies. In many cases, it allows workers to stay safe, as automation enables workers to reduce or avoid returning to the office to process manually-based workflows such as scanning and printing invoices, purchase orders, and even checks.

Key takeaways include how to:

- Better manage your cash and AP spend
- Become more efficient and effective
- Get critical insights with analytics and business intelligence
- Enhance user experience for suppliers and staff
- Manage compliance and mitigate security risks
