governance is becoming very important for boards, especially with the inclusion of ESG, climate risks, and digitization. It is increasingly important to have board members trained in this area," she continued.

The Certificate in Risk Governance program, also known as The Board Members' Course on Risk™, is unique. No course on risk for board members as robust as this - depth, practicality, and global expertise - exists anywhere else. The fundamental Duty of Care for directors around risk is to ensure that our organizations are taking risk well in pursuit of our goals and ambitions. This course furthers the fulfillment of that duty. Information about the Certificate in Risk Governance program is available for download.
