According to the 2021 article, Women Making Gains in STEM Occupations but Still Underrepresented, the United States Census Bureau reports, "Women are nearly half of the U.S. Workforce but only 27% of STEM Workers. Women made gains – from 8% of STEM workers in 1970 to 27% in 2019 – but men still dominate the field. Men made up 52% of all U.S. workers but 73% of all STEM workers." Crystal Goliday and Never Underestimate Knowledge will continue to do their part to empower and provide resources.

To date, Never Underestimate Knowledge has successfully awarded THE RHM SCHOLARSHIP to five deserving high school and college students in 2020, which is a scholarship in honor of the late Mother of the NUK Founder and Executive Director, Crystal Goliday.
