SAN FRANCISCO, CALIFORNIA, UNITED STATES, March 30, 2021 /EINPresswire.com/ -- DotCom Magazine today announced that SearchManipulator has been selected to join its annual Impact Company of The Year List For 2021. The DotCom Magazine Impact Company of The Year 2021 Award celebrates the most important segment of the economy – America's privately owned companies whose Founders, CEOs and Amazing Team Members are making an important impact in the economy.

DotCom Magazine has honored SearchManipulator as making a positive difference in an incredibly unique year. The DotCom Magazine 2021 Impact Company of The Year Awards celebrates shapeshifting entrepreneurs and their companies. When a company makes an impact, not only are they helping their clients, but they are also helping the world become a better place.

Andy Jacob, CEO of DotCom Magazine says, "We appreciate the selfless commitment that leaders and entrepreneurs make to their brand. We are honored to award great companies our DotCom Magazine 2021 Impact Company of The Year Award. At DotCom Magazine, we believe entrepreneurs are the heartbeat of the world in so many ways. We believe it is a world where risktakers must be lauded, saluted, and respected. 2021 is an incredibly unique year in so many ways. Companies have so many ways to make an impact, and that's why each company's unique impact is so important than ever before. Our award winners have courage and an unyielding passion to grow and contribute in incredibly unique ways.

Jacob continues, "In 2021, everyone talks about uncertain times. In 2021, we believe it is the leaders of impactful companies that stick their head up above the crowd, and say "we can do this", "we will get it done", "we will make this happen", "we are willing to pay the price, and "we will turn uncertainty into opportunity. Our award winners are selected for leadership. Their company leads and their business system leads, we consider our award winners lamplighters. We believe we need more courageous entrepreneurs bringing light into the world by building compelling companies that make a difference.

SearchManipulator was founded by engineers, not salesmen. CEO Matt Peters started the

business with one goal: to provide customers with the latest and greatest online reputation management technology, at the best possible price. For individuals and businesses alike, having the proper online presence is critical. A single negative complaint or unfavorable picture online could wreak havoc if enough hasn't been done to build up a positive online presence. This is where SearchManipulator comes in. Not only are they able to restore a reputation marred, but they can also help a person or business to proactively build a positive online reputation that would be more resilient to any attacks. Wanting to stand out from other businesses in the online reputation management industry that are prone to shady tactics, Peters has gone above and beyond to show clients that SearchManipulator is committed to unparalleled service, done ethically. SearchManipulator offers a 30-day money back guarantee in which you can receive a refund if you are unhappy with services for any reason, and they operate on a month-to-month basis with no contracts, ever. This commitment by all the hard-working team members has resulted in a 98% success rate over the last 11 years. Matthew Peters was [recently featured in Dotcom Magazine](#), which highlights more of his story and the success he achieves for clients of SearchManipulator.
