Dony Garment representative explained, "The Middle East countries face new issues due to the use of a disposable mask. It has littered the countries with disposable face mask garbage. It contributes to new pollution in which they contain viruses that can survive on surfaces for days. They may contact the human respiratory, which can increase the risk of new infections. And the communities are aware of replacing their disposable mask with reusable fabric masks."

Dony Mask also opens opportunities for other sellers to cooperate with Dony Garment to sell Dony Mask products to the market. They also have Exclusive Distributors in Australia, New Zealand, Belgium, Malaysia, and Canada.
