Liongard Announces Partnership with The 20

Companies see future of MSP growth in standardization, scalability

HOUSTON, TEXAS, UNITED STATES, March 31, 2021 /EINPresswire.com/ -- Liongard, an automation platform for managed services providers (MSPs), today announced a new partnership with The 20, a business development group for MSPs. Through the agreement, The 20's partners now have access to Liongard's platform, which enables MSPs to automatically document, audit and secure their clients' systems from cloud and network to on-premise environments and beyond as they keep pace with ever-changing IT requirements.

"To keep pace with constantly evolving IT requirements, we are excited to offer Liongard to MSPs," said Tim Conkle, CEO of The 20. "Liongard's trusted platform enables MSPs to have greater visibility into how their systems are managed. With its capabilities, the solution gives our members a competitive edge."

Benefits of Liongard

The Liongard platform features trusted, automated documentation with Inspectors and Integrations to track historical changes and keep all documentation up to date to save time and increase productivity for MSPs.

Custom, Actionable Alerts eliminate reactive responses so MSPs can stay ahead of issues.

Robust Reporting features the historical configuration data and can be exported and shared in 1-click for easy customer reports.

Unified Visibility delivered across the stack by mission critical Inspectors pulling data from more than 50 systems, and a growing number of Integrations, including Hudu, AutoTask, ITGlue,

Connectwise and Kaseya BMS.

"We are thrilled to partner with The 20," said Casey Higgins, Director of Channel and Alliances at Liongard. "Both of our companies believe standardization can help secure and scale MSPs, and I'm excited for the growth opportunities this provides for our industry."
