

Dietsmann increases its stake in robotics specialist Taurob

Dietsmann, global front runner in Advanced Predictive Maintenance for the energy industry, increased its share in robotics specialist Taurob GmbH to 50%.

BREDA, THE NETHERLANDS, April 6, 2021 /EINPresswire.com/ -- This week, major international maintenance company [Dietsmann](#) increased its share in robotics specialist [Taurob GmbH](#) from 20% to 50%.

Dietsmann made an initial investment in Taurob in 2019, as both entities shared the common goal of combining Dietsmann's maintenance know-how and Taurob's robotics technology to develop and apply robotics solutions on Dietsmann-maintained energy production installations both onshore and offshore.

Today, this strategic collaboration is moving one step further by increasing Dietsmann's stake in Taurob GmbH to 50% and by the establishment of Taurob Services, a 100% subsidiary of Taurob GmbH, dedicated to the manufacturing, distribution and sale or lease of the Taurob Inspection & Maintenance robot.

environments and has already been operating in offshore environments for some major International Energy Companies. The robot is equipped with sophisticated sensors that gather 24/7 real-time equipment data, which –through interpretation and algorithms– allow for extremely effective predictive maintenance. Dietsmann is a major international maintenance specialist in the energy industry and a leader in advanced predictive maintenance technology.
