

3T Pro Now Offers Onsite IT Support to Businesses in Dallas

Representatives with 3T Pro announced today that it is now offering onsite IT support to businesses in Dallas.

RICHARDSON, TEXAS, UNITED STATES, April 12, 2021 /EINPresswire.com/ -- Representatives with [3T Pro](#) announced today that it is now offering onsite IT support to businesses in Dallas.

“Reliable and efficient [IT support in Dallas](#) and surrounding areas is a necessity for any sized business,” said 3T Pro Vice President of Sales Tommy Gay.

Tommy explained that the costs of IT-related downtime and security breaches are often underestimated.

Not only do they cost in time and productivity, but they can also negatively impact your company’s reputation.

3T Pro provides 24/7 Computer Support and IT Services to a wide variety of small- and medium-sized businesses across Dallas, Ft. Worth, and beyond. The company offers hourly and managed IT Services, Cloud, Project Management, Business Continuity, and more.

Tommy noted that managed IT is growing in the Dallas IT support industry.

“Small and medium-sized companies require specialized IT solutions but might not have the budget or the interest in hiring their own team,” Tommy said. “Those days of having one person on staff who is handy with computers are gone. The importance of data security, cloud accessibility, and network connectivity should be taken seriously by any sized company. Managed IT allows any company access to an entire IT department when needed, without having

to hire an entire department in-house.”

Tommy reiterated that 3T Pro is a Dallas IT support and consulting firm that has been serving the wider Dallas area since 1992.

“Countless companies in a variety of industries rely on 3T Pro to manage their IT needs,” Tommy said. “Some of our clients include companies in law, medicine, oil and gas, architecture, interior design, financial services, accounting, manufacturing, food services and business consultation.”
