

Hundreds of Academics Sign Letter Supporting International Definition of Antisemitism

At a time when antisemitism is increasing, letter published today calls for open dialogue and critical discussion with people of good faith worldwide.

BRUSSELS, BELGIUM, April 6, 2021 /EINPresswire.com/ -- The Adopt IHRA Coalition is an umbrella group of more than 145 NGOs from around the world that calls for the support and the adoption of the [IHRA definition of antisemitism](#) by companies, institutions and governments.

Today, the Coalition will publish a [letter of support](#) for IHRA by hundreds of academics.

IMPAC is a member of the Coalition. IMPAC condemns all forms of racism.

The IHRA definition is a critical tool that can and should be used to protect Israelis and Jews worldwide when they are being threatened and attacked by those who falsely hide behind "freedom of expression" to excuse their racist behaviour.

We call upon academics from all over the world to [add their names](#) to the letter, and thereby join those wishing to stamp out antisemitism.

“Jews around the world need to know that they are not alone. The Arab states that signed the Abraham Accords and other Arab states are on their side. **Combating antisemitism needs to be part of our model for development and modernization.”**
