their craft with precision and enthusiasm.

Perfect for beginners, the Painting Masterclass provides the A, B, C's of painting and the exploration of color use. Heavily focused on creating realistic color, this all-inclusive program leaves participants with over a semester's worth of invaluable information from a master painter in under six weeks. Suited for beginners or intermediate painters, the Paint Birds Online Workshop dives into the nuances of painting birds and the techniques that bring these paintings to life.

"At first you paint for the challenge, to make your canvas look like what you intend. Then it becomes more about the subjects and the fieldwork, spending time in nature. Then you realize it has been and will always be about the unique and wonderful people you meet along the way."
