The aligners must be worn for 20 to 22 hours per day to be successful. Patients will visit [Exeter Orthodontics in Harrisburg](#) every few weeks to switch out their trays.

However, Invisalign may not be the best fit for every patient. Patients with more complex cases may still be

better suited for traditional braces. Like Invisalign, traditional [braces in Harrisburg](#) also cost only \$3,995. The wires and brackets are affixed to the patient’s teeth, making it easier to align certain bites.

Dr. Wegrzyniak and her team will walk patients through the two treatment options and help them decide which solution is best for their health, lifestyle, and smile.
