

Zeta Pharma Launches The Novel Diabetes Medication In The Egyptian Market.

CAIRO, EGYPT, April 11, 2021

[/EINPresswire.com/](https://www.einpresswire.com/) -- In the presence of a group of eminent Egyptian professors of Internal medicine and endocrinology, a luxury hotel in Cairo witnessed the launch conference of “Empacoza”, the latest type 2 diabetes medication, which contains the active ingredient (Empagliflozin). This molecule resembles a quantum leap in the management of type 2 diabetes, and recently produced by Zeta Pharma. Empacoza is a novel type 2 diabetes medication, which contains the active ingredient (Empagliflozin). This molecule resembles a quantum leap in the management of type 2 diabetes, and recently produced by Zeta Pharma.

The latest scientific studies have proven that this drug, in addition to its high efficacy in glycemic control, also benefits the heart and reduces the incidence of cardiovascular death. It also provides kidney protection and aids weight loss in diabetic patients.

A group of senior health care professionals from all Egyptian universities participated in this event and provided valuable patient instructions regarding this drug's best use.

Prof. Sherif Hafez, Professor of Internal Medicine and Diabetes at Cairo University, confirmed the importance of the tight control on blood glucose to avoid serious complications. He also highlighted the need for early glycemic control and advised maintaining tight control of blood pressure and cholesterol levels.

Prof. Megahid Abu Al-Majd, Professor of Internal Medicine and Diabetes at Mansoura University, praised the leap that occurred in the management of diabetes with the emergence of Empagliflozin, which protects the heart and kidneys and helps in losing weight.

In addition to the scientific and medical discussions, the conference witnessed the launch of Zeta Pharma's health initiative "مبادرة الصحة للجميع"، which aims to raise awareness about diabetes and to support diabetics from

all perspectives. This comes in light of Zeta Pharma's endeavor to be a pioneer in treating diabetics by providing the latest and highest quality medications to the Egyptian patient in line with the global drug market and running patient support programs.

-مبادرة الصحة للجميع:

Zeta Pharma, an Egyptian company, started its operations in the Egyptian market in 2015 with virus C medications and actively participated in the national initiative of "مبادرة الصحة للجميع". Since then, Zeta Pharma continued to offer essential medicines to the Egyptian patient, with a future portfolio of more than 150 medications in different therapeutic classes.

Zeta Pharma has established its factory in accordance with the latest international standards and requirements of the industry and took great steps to qualify for the European GMP Accreditation.
