The boat building market consists of sales of boats and related services by entities (organizations, sole traders, and partnerships) that operate shipyards or boatyards. Shipyards and boatyards are fixed facilities with drydocks and fabrication equipment capable of building boats, including dinghies, hovercrafts, motorboats, rowboats, yachts, sailboats, and inflatable rubber boats. Only goods and services traded between entities or sold to end consumers are included.

Trends In The Global Boat Building Market

The development of autonomous boats is gaining popularity in the boat building market. Top companies in the market are developing technologically advanced autonomous boats to maintain their position in a competitive business environment.
