

Global 3D Printer Market Trends, Strategies, And Opportunities In The 3D Printer Market 2021-2030

The Business Research Company's 3D Printer Global Market Report 2021: COVID-19 Growth And Change To 2030

LONDON, GREATER LONDON, UK, April 14, 2021 /EINPresswire.com/ --

According to the new market research report '[3D Printer Global Market Report 2021: COVID-19 Growth And Change To 2030](#)' published by The Business

Research Company, the 3D printer market is expected to reach a value of nearly \$25.26 billion in 2025 at a CAGR of 23%. The growth in the use of 3D printed products in the automotive industry is a key factor driving the growth of the 3D printer manufacturing market.

<https://www.thebusinessresearchcompany.com/sample.aspx?id=3205&type=smp>

The 3D printer manufacturing market consists of sales of 3D printers that are used in automotive, healthcare, industrial, consumer electronics, aerospace and defense industries. 3D printing is the method of creating three-dimensional objects by transferring consecutive material layers through a 3D printer.

Trends In The Global 3D Printer Market

Major companies in the 3D printer manufacturing market are producing printers that have a vast capacity and can print faster than conventional 3D printers. For instance, the stereo lithograph apparatus (SLA) 3D printer from Nexa3D will be 6 times faster than the machines of the other competitors and its capacity would also be 2.5 times larger. The project production time for prototypes is also reduced from hours to minutes and it is equipped with durable materials that can withstand ultra-fast 3D printing.

[Global 3D Printer Market Segments:](#)

The global 3D printer market is further segmented based on printer type, technology, end use industry and geography.

The Business
Research Company

3D Printer Global Market Report 2021: COVID-19
Growth And Change To 2030

By Printer Type: Desktop 3D Printer, Industrial 3D Printer.

By Technology: Stereolithography (SLA), Fused Deposition Modeling (FDM), Selective Laser Sintering (SLS), Direct Metal Laser Sintering (DMLS), PolyJet/MultiJet Printing (MJP), Inkjet Printing, Electron Beam Melting (EBM), Laser Metal Deposition (LMD), Direct Light Projection (DLP), Others.

By End-Use Industry: Automotive, Aerospace & Defense, Healthcare, Food, Construction & Architecture, Others.

By Geography: The global 3D printer market is segmented into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa.

3D Printer Global Market Report 2021 is one of a series of new reports from The Business Research Company that provides 3D printer global market overviews, analyzes and forecasts market size and growth for the 3D printer global market, 3D printer global market share, 3D printer global market players, 3D printer global market segments and geographies, 3D printer global market's leading competitors' revenues, profiles and market shares. The 3D printer global market report identifies top countries and segments for opportunities and strategies based on market trends and leading competitors' approaches.

Read 3D Printer Global Market Report 2021 from The Business Research Company for information on the following:

Data Segmentations: Market Size, Global, By Region And By Country; Historic And Forecast Size, And Growth Rates For The World, 7 Regions And 12 Countries

3D Printer Market Organizations Covered: Stratasys, GE Additive, SLM Solutions, Voxeljet, Arcam AB, Hoganas AB, Groupe Gorgé, Renishaw PLC., Markforged Inc., Made In Space, Proto Labs Inc., and Tiertime.

Regions: Asia-Pacific, China, Western Europe, Eastern Europe, North America, USA, South America, Middle East and Africa.

Countries: Australia, Brazil, China, France, Germany, India, Indonesia, Japan, Russia, South Korea, UK, USA.
