GoodFirms is an internationally recognized B2B research, ratings, and reviews platform. It builds a bridge to assist the service seekers in connecting with the best partners that suit their business needs. The analyst squad of GoodFirms conducts a profound assessment where each agency is assessed following several parameters.

The research process of GoodFirms includes three main pillars that are Quality, Reliability, and Ability. Further, each element is subdivided into multiple metrics to analyze every agency deeply. It integrates with verifying past and present portfolios, years of experience, market presence, and feedback received by their customers.

After this method, focusing on the overall assessment process, each firm obtains scores that are out of a total of 60. Hence, considering these points, all the agencies are indexed in the list of top

IT development and designing companies, best software, and other service providers from the various sectors of industries.

GoodFirms has also curated the list of the [Best Audience Response Software](#). It helps sectors of industries and organizations to create engaging content, polls, surveys and stream content to attract and influence the customers towards the products and services.
