The Certificate in Risk Governance is awarded to those who have completed an intensive 17-course education program and evaluation. The curriculum is designed for current and aspiring board members who seek to advance the governance of risk-taking at their organizations, as well as

those who interact with boards. It is taught by some of the world’s leading figures in risk governance. The program features lessons by nearly 50 board members, c-level executives, and well-known authors from five continents.

“We are pleased to award this distinction to Dr. Moulton, who is the Director of Risk Management for NYSE-listed Colfax Corporation,” said David R. Koenig, President and CEO of The DCRO Institute. “This accomplishment demonstrates his deep commitment to excellence in his work on Enterprise Risk Management strategies, insurance program optimization, and risk mitigation across business, products, cyber, compliance, and safety,” he continued.

“This is an extremely well-designed program for those looking to build their knowledge and leadership skills in risk management,” said Dr. Moulton. “The program covered all significant risk management areas that effective Directors can expect to dig into as they discharge their fiduciary responsibilities, and as their organizations pursue value-creation objectives,” he continued.

The Certificate in Risk Governance program, also known as [The Board Members' Course on Risk™](#), is unique. No course on risk for board members as robust as this - depth, practicality, and global expertise - exists anywhere else. The fundamental Duty of Care for directors around risk is to ensure that our organizations are taking risk well in pursuit of our goals and ambitions.
