

Springfield, PA Dental Crowns Change Smiles in as Little as Two Visits

DICE Dental in Springfield, PA offers affordable dental crowns, which can be placed in as little as two visits.

DICE Dental offers dental implants, dentures, extractions, and crowns in Springfield, PA

SPRINGFIELD, PA, UNITED STATES, April 22, 2021 /EINPresswire.com/ -- [Dental crowns in Springfield, PA](#) are available

from DICE Dental, owned and operated by Dr. Katie Alger. These crowns start at \$650 and are made in-house with a CEREC milling machine so that Dr. Alger and her team can achieve the perfect shape and size.

“

We really value patient comfort here and use advanced technology to ensure that treatments are delivered quickly, efficiently, and painlessly.”

Dr. Katie Alger

A crown covers a tooth that has been broken or weakened by damage or decay. They’re also an affordable and natural-looking solution for patients who have had root canals or large cavities because they strengthen the tooth and prevent further breakage.

“We really value patient comfort here and use advanced technology to ensure that treatments are delivered quickly, efficiently, and painlessly,” explains Dr. Alger. “We use 3D x-rays, digital impressions, and a digital scanner for the

perfect color match.”

Dr. Alger adds that most patients have their custom crowns placed in two visits.

“The results are life-changing,” she says.

[Dental implants in Springfield, PA](#) are also offered by DICE Dental. Implants start at only \$750. During this procedure, a titanium implant is placed into the jawbone and covered by a porcelain crown. Their natural look, durability, and high success rate have made them a popular treatment.
