

Crossvale Slashes Red Hat Subscription Prices

One of the nation's leading IT service companies has reduced Red Hat Subscription fee.

DALLAS, TEXAS, UNITED STATES, April 14, 2021 /EINPresswire.com/ -- Representatives with Dallas/Fort Worth-based [Crossvale](#) announced today that it is now offering up to 50 percent off of its Online Store of Red Hat Subscriptions.

“We are very excited about this because customers can now save big on our recently-launched [Crossvale Shop MVP](#),” said Todd Millard, vice president of sales and spokesperson for Crossvale. “Receive up to 50 percent off subscriptions - huge savings on your Red Hat subscriptions. Terms and conditions apply in conjunction with services engagement.”

But that’s not all. Crossvale is also now offering free quotes for migration to RHEL 8.

“Our approach to simplifying the migration of enterprise IT ecosystems results in well-defined lifecycle management through automated remediation, consistent configuration management, and streamlined, centralized control of all Linux environments,” Millard said.

The company, founded in 2001, has earned a customer reputation for outstanding performance across the United States and 20 other countries, establishing thorough expertise at transforming technologies with best practices into measurable business improvement.

Millard explained that by choosing the status quo and ELS, software costs increase by 50 percent to run old software.

“By leveraging Ansible and Smart Management and move to RHEL 8, you build an automation and management platform on a modern OS,” Millard stressed.

Quantifiable results, according to Millard, include:

- 63 percent reduction in unplanned downtime

- 88 percent more productive IT teams
- 82 percent lower infrastructure costs
- 85 percent reduction in cost of operations
