Alvaro Villacorta, Managing Partner at TBC

"Our partner fund is Spain's largest pre-seed fund and having reached this milestone, we are now positioned to play a key role in Spain's startup ecosystem" shared Jorge Dobón, Chairman of Demium Startups SL.

According to ASCRI, 765 professional seed investments took place in 2020 in Spain. Demium's partner fund plans on investing in 75 startups per year; at least 55 of which will be in Spain. This implies that Demium Group will be investing in approximately 7% of the total number of startups that receive pre-seed money from professional investors. Highly technological, scalable solutions like Corgee, HearMe, eKYC, Emendu or NetworkMe, amongst others, are included in the total number of investments made by this fund.

"We want to be a reference in talent investing. We support entrepreneurs throughout their journey, from helping them find a co-founder and completing their team to working to refine their idea, validate their business model and secure initial capital." - commented Jaime Guillot, Demium's Iberian Director.

The Asset Management Company is run by Alvaro Villacorta who has previously founded and ran Food Messenger and held the position of Vice-President of Incubation at Demium.
