

# Florida US Navy Veterans Lung Cancer Advocate Recommends Attorney Erik Karst for a Navy Veteran with Lung Cancer in Florida- Compensation for Them Might Exceed \$100,000 If they Had Navy Asbestos Exposure

TAMPA, FLORIDA, USA, June 3, 2021 /EINPresswire.com/ -- The Florida US Navy Veterans Lung Cancer Advocate says, "If you are a Navy Veteran in Florida and you have just been diagnosed with lung cancer-please call attorney Erik Karst of the law firm of Karst von Oiste at 800-714-0303 to discuss what might be significant financial compensation-if while in the navy you had heavy to extreme exposure to asbestos on a navy ship, submarine or at a shipyard. A financial compensation settlement for a person like this might exceed \$100,000 and it does not involve suing the navy. The typical person we are trying to get identified served in the navy prior to 1982-and it does not matter if they smoked cigarettes or not.

"If the person we have just described sounds like your husband or dad-and his lung cancer was diagnosed within the last few years and he is unable to call on his own-please call attorney Erik Karst of the law firm of Karst von Oiste at 800-714-0303 to discuss what might

turn out to be substantial compensation. To qualify for compensation the Navy Veteran must be able to get specific about how, where and when they were exposed to asbestos. It is this incredibly important information that becomes the basis for a compensation claim. Having a copy of the Navy Veteran's DD214 Discharge Papers-will be very helpful for Erik Karst and his colleagues at the law firm of Karst von Oiste."

The Florida US Navy Veterans Lung Cancer Advocate is proud to help the people with asbestos exposure lung cancer or mesothelioma in Miami, Jacksonville, Tampa,

Saint Petersburg, Orlando, Hialeah, Fort Lauderdale, Tallahassee, Port Saint Lucie, Cape Coral or anywhere in Florida. <https://Florida.USNavyLungCancer.Com>

High-risk work groups for exposure to asbestos now living in Florida include US Navy Veterans, power plant workers, shipyard workers, oil refinery workers, steel mill workers, miners, manufacturing workers, public utility workers, plumbers, welders, electricians, auto mechanics, machinists or construction workers. Most people who are diagnosed in Florida were probably exposed to asbestos in the North East or Midwest. Typically, the exposure to asbestos occurred in the 1950's, 1960's, 1970's, or 1980's.

“

"If you are a Navy Veteran in Florida and you have lung cancer-please call attorney Erik Karst of Karst von Oiste at 800-714-0303 to discuss compensation-if you had navy asbestos exposure."

The US Navy Veterans Lung Cancer Advocate says, "If your husband, dad, coworker or neighbor has just been diagnosed with lung cancer and you know they had significant exposure to asbestos in the navy, at a shipyard or while working at a factory, at power plant, public utility, or as a plumber, electrician welder, mechanic or any kind of skilled trades group in any state please have them call us anytime at 800-714-0303. Most people like this never get compensated-even though the asbestos trust funds were set up for them too. We are trying to change this sad fact."
