SANDY, UT, USA, April 20, 2021

/EINPresswire.com/ -- [Brilliant](#) Miller is pleased to announce the release of his latest video podcast - an [interview](#) with the world renowned scientist and author, Avi Loeb. Avi has published 8 best selling books and over 700 articles.

Avi joins Brilliant this week to discuss his latest book, Extraterrestrial, and the amazing interstellar discovery that formed the foundation for it's climb to number one on the New York Times Bestseller list. They discuss the possibility of alien life, and the possible source of the remarkable space anomaly Avi and his team discovered in 2017. Avi shares his passion for the sciences and his disagreement with the current trend of the community, and his hope to reshape the future of science, and his recent focus on motivating youth to pursue an interest in the universe around us.

“

The study of science is meant to be a discussion with nature, not a monologue.”

*Avi Loeb*
