Key responsibilities of site inspectors include traveling to the three finalist cities bidding for the 2026 Gay Games XII, Guadalajara (MEX), Munich (DEU) and Valencia (ESP) to review the venues, infrastructure and all other aspects of the bid organization, having a rounded understanding of FGG history, processes and quality standards, understanding the complexities of producing sports and cultural events, and assisting with the final report once inspections are complete.

Site Inspections take place in August 2021 and will feature live social media reporting from the bid cities. The team will present its official reports at the FGG General Assembly November 2021 in Hong Kong, where final voting will take place.

The site selection process is one of the Federation's most vital tasks, and the FGG takes great pride in the lengthy and thorough process.

Hosting the Gay Games: The positive financial impact to the host city of the Gay Games is clear, as evidenced by the official economic impact highlights from the 2018 Gay Games X in Paris: Total economic impact: US \$117.9 million. Locals and non-locals contributed a total of US \$72.7 million to the economy, in the areas of lodging, dining and entertainment, travel and other necessities, and tourism. An additional US \$45.8 million was generated in local incomes – roughly the equivalent of 1,429 full-time jobs. 23% of participants were from France (12% from Paris). 40% of local participants said they would have traveled outside Paris, France to participate in the Gay Games, taking their spend of US \$9.2 million to another region.
