

# High-Power And Diode Lasers Are Introduced As Fiber Laser Industry Trends

*The Business Research Company's Fiber Lasers Global Market Report 2021: COVID-19 Growth And Change To 2030*

LONDON, GREATER LONDON , UK, April 22, 2021 /EINPresswire.com/ -- Our reports have been revised for market size, forecasts, and strategies to take on 2021 after the COVID-19 impact: <https://www.thebusinessresearchcompany.com/global-market-reports>

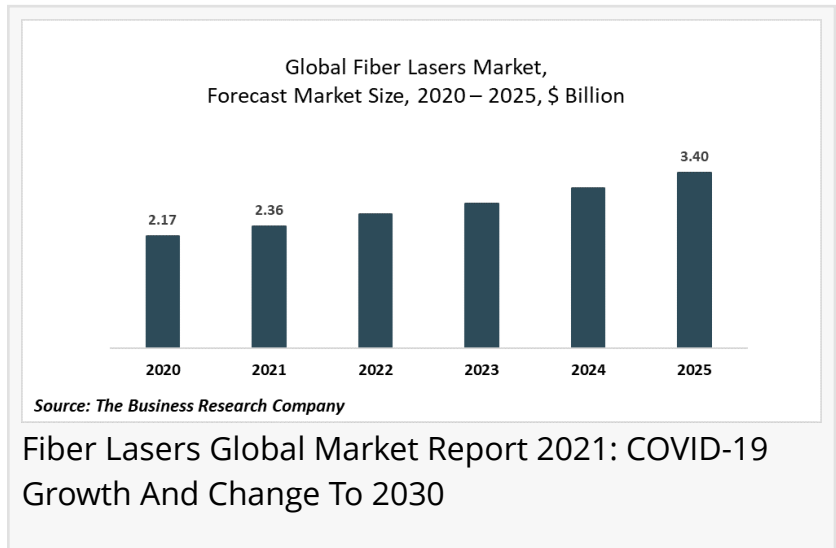

New technologies such as high-power fiber laser and diode laser have been introduced in the fiber laser market. With 800 nm wavelength, diode laser has the deepest penetration levels. Another new technology, blue laser has also been introduced in the market specially targeted for welding purposes. The blue laser has higher power and brightness compared to ordinary laser. Also, blue lasers do not generate excess heat. These new technologies in fiber laser brings in more precision while welding and cutting of materials and thus are major [fiber lasers market](#) trends. Bystronic, a Switzerland-based laser company is providing an all-new high power fiber laser and diode laser for welding, cutting and material processing purpose. NUBURU, a US-based company in the industrial laser market, invented and manufactures the high-power blue laser technology.

Major players covered in TBRC's fiber laser market report are Amonics Ltd., Apollo Instruments Inc., Coherent Inc., IPG Photonics Corporation and Jenoptik Laser GmbH.

Read More On The Global Fiber Lasers Market Report:

<https://www.thebusinessresearchcompany.com/report/fiber-lasers-global-market-report>

The global fiber lasers market is expected to grow from \$2.17 billion in 2020 to \$2.36 billion in 2021 at a compound annual growth rate (CAGR) of 8.8%. The growth is mainly due to the companies resuming their operations and adapting to the new normal while recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational

challenges. The global fiber laser market is expected to reach \$3.4 billion in 2025 at a CAGR of 9.6%.

The fiber lasers market covered in this report is segmented by type into infrared fiber laser, ultraviolet fiber laser, ultrafast fiber laser. The fiber laser market is also segmented by application into marking, micro processing, high power, fine processing and by end use into material processing, healthcare, others.

[Fiber Lasers Global Market Report 2021: COVID-19 Growth And Change To 2030](#) is one of a series of new reports from The Business Research Company that provides fiber lasers market overview, forecast fiber lasers market size and growth for the whole market, fiber lasers market segments, and geographies, fiber lasers market trends, fiber lasers market drivers, restraints, leading competitors' revenues, profiles, and market shares.

Here Is A List Of Similar Reports By The Business Research Company:

Global General Electronic Components Market - By Product Type (Passive, Active, Electromechanical Components, Others), By End Use Industry (Aerospace, Communication, Automotive, Others), And By Region, Opportunities And Strategies – Global Forecast To 2030  
<https://www.thebusinessresearchcompany.com/report/general-electronic-components-market>

Consumer Electronics Repair and Maintenance Market - By Type (Loudspeakers and Sound Bars, Microphones, Amplifiers and Mixers, Music players and other devices, Televisions, Video Players, Video Cameras), By Service (In warranty, Out of warranty), By End User (Industrial and Commercial, Residential), And By Region, Opportunities And Strategies – Global Forecast To 2030  
<https://www.thebusinessresearchcompany.com/report/consumer-electronics-repair-and-maintenance-market>

Electronic Products Market - By Type (Audio and Video Equipment, Semiconductor and Other Electronic Components), By End-Use (Business to Business (B2B), Business to Customer (B2C)), By Sales Channel (OEM, After Market), By Mode Of Sale (Online, Offline), And By Region, Opportunities And Strategies - Global Forecast To 2030  
<https://www.thebusinessresearchcompany.com/report/electronic-products-market>

Fiber Optical Cable Global Market Report 2021: COVID-19 Impact and Recovery to 2030
