

Introducing Dobler Consulting Client Portal - 100% Transparency, Available 24/7

Dobler Consulting proudly announces the launch of its Client Portal. The long-awaited portal will act as a secured dashboard for their customers.

TAMPA, FL, USA, April 27, 2021 /EINPresswire.com/ -- [Dobler Consulting](#) proudly announces the launch of its Client Portal. The long-awaited portal will act as a secured dashboard for their customers. Its main purpose is to safely store all client-related documents, and its soft launch has been set for June 3rd, 2021.

Dobler Client Portal

This highly anticipated Client Portal will provide 100% transparency to Dobler Consulting's clients by granting their customers access to their respective documents. Opening access to all client documents through a client portal streamlined critical information processing for both the clients and Dobler.

“

Our new Client Portal will give managers and executives access to all client contractual agreements, invoices, onboarding documentation, and progress reports. It's going to be amazing.”

Katja Mosher (Director of Operations & Client Delivery)

The client portal contains access level security to ensure that certain information is only visible to the appropriate parties. The access rights will be assigned during the onboarding process. Once the clients are onboarded, the documents become accessible to them 24 hours a day, 7 days a week. It is important to note that these documents can also be reached from any computer, laptop, tablet, or smartphone located anywhere in the world. Dobler Consulting will be offering the Client Portal to all its loyal clients at no additional cost.

"I'm so excited to offer another management tool for our clients. Our new "Client Portal" will give managers and executives access to all client contractual agreements, invoices, onboarding

documentation, health check reports, and progress reports. "It's going to be amazing." -Katja Mosher (Director of Operations & Client Delivery)

The release of the Client Portal comes only weeks after releasing the [Managed Services](#) Client Dashboard, named [SpectrumDB](#) 360. Both tools, in conjunction, are providing clients with unparalleled transparency and accessibility. Dobler Consulting once again is staying true to its mission statement of providing "innovative database management with exceptional customer service." Through innovation and technology, Dobler adheres to their client's needs and demands. The company continues to enhance its value and dedication to its clients while sustaining its affordable prices.
