

\$1.2 billion ASL interpretation market presents opportunity for consolidation

SEATTLE, WASHINGTON, USA, April 28, 2021 /EINPresswire.com/ -- Market research firm Nimdzi Insights released "[American Sign Language Interpreting — The Size and State of the Market](#)," a flagship analysis of the second most in-demand language (after Spanish) in the largest interpreting and language services market in the world — the United States. The market is expected to reach up to \$1.2 billion in 2021 and is extremely fragmented.

Sarah Hickey, VP of Research at Nimdzi Insights says that "the market is regulated in order to guarantee that the deaf or hard of hearing population can expect to receive the same access to public life as hearing people." According to the Gallaudet Research Institute there are around one million functionally deaf people in the United States and 2 to 3 out of 1,000 children are born with detectable hearing loss in the country.

The [report](#) provides a detailed analysis of key trends, pricing, market size, and growth. This in-depth study covers key points such as Interpreter Service market revenue and technology trends, including Video Relay Service (VRS), Video Remote Interpreting (VRI), Captioning, and the challenges of gloves, glasses and other gadgets.

“

The market is regulated in order to guarantee that the deaf or hard of hearing population can expect to receive the same access to public life as hearing people”

*Sarah Hickey, VP of Research,
Nimdzi*

In the United States, the market for American Sign Language (ASL) interpreting services is highly regulated and the right to language access for Deaf and hard of hearing (DHOH) individuals is protected by the law. Deaf communities are well-informed and pr
